EDUCATION

Thakur College of Engineering and Technology — **09 2025 - 06 2027**
Master of Computer Applications – 7.75 CGPA — Mumbai, India

Ismail Yusuf College — **06 2022 - 05 2024**
Bachelor of Commerce – 53.60% — Mumbai, India

COURSEWORK / SKILLS

• Data Structures & Algorithms • Database Management System • Operating System • Computer Networks • OOPS Concept
• Web Development • Software Engineering • Object Oriented Programming

PROJECTS

CodeJudge – Online Coding Platform | React.js, Node.js, Express.js, MongoDB, Judge0, Docker, WebRTC, AI Integration 2026

- Built a full-stack **online coding platform** where users can write, submit and execute code against test cases through an integrated **Judge0** execution environment.
- Implemented a **rate limiter** on submission endpoints to control request frequency and improve API reliability under load.
- Added **WebRTC**-based real-time doubt-session functionality, enabling live peer-to-peer communication between users on the platform.
- Containerized the application with **Docker** for consistent, isolated development and deployment environments, and used Git/GitHub for version control.
- Built an **AI Learning Coach** that gives users progressive, context-aware hints instead of direct answers, guiding them toward the solution step by step.
- Developed an **AI Code Review** feature that analyzes submitted code for time/space complexity, code quality and optimization suggestions.

CodeJudgeBackend | Node.js, Express.js, MongoDB | GitHub

- Backend repository for the CodeJudge platform, implementing the server-side APIs and application logic.

CodeJudgeFrontend | React.js, JavaScript, HTML/CSS | GitHub

- Frontend repository for the CodeJudge platform, focused on the coding interface, navigation and component structure.

TECHNICAL SKILLS

Languages:	C, C++, Java, JavaScript
Frameworks:	React.js, Node.js, Express.js
Databases:	MongoDB, SQL
Tools & DevOps:	Git, GitHub, Docker, Linux
Other:	Judge0 API, WebRTC, Rate Limiting, AI-based Code Review

ACHIEVEMENTS

• 272+ Problems Solved on LeetCode
